The fact that we must deal with the problems of the whole world today is a result of globalization. We must be aware of the fact that globalization is a globalization of our European spirit, our way of life, our technology, including the atomic bomb, our economy and society, and so we are responsible for what is happening worldwide. As a result of globalization, we cannot only observe a growing standard of living and a faster population growth due to improved health care and medicines, but we also have to complain about relative impoverishment, unemployment, economic crises, left-wing and right-wing extremism, religious wars and huge refugee flows. To the extent that the negative consequences of globalization affect the Western world, they lead to general uncertainty, which then manifests itself in a loss of confidence in political institutions. Even the greatest achievements of the post-war period, the overcoming of nationalism and the unification of Europe, are questioned and disproved. and salvation is sought in foreclosure and national
