This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.

John D. Dingell (chairman) presiding. Mr. Dingell. The subcommittee will come to order. Today the subcommittee will examine a number of important issues associated with serious falsification and fabrication of data in some of the Nation s most important clinical trials on the treatment and prevention of breast cancer, the National Surgical Adjuvant Breast and Bowel Project, Nsabp, led by Dr. Bernard Fisher of the University of Pittsburgh. A particular focus of this hearing is the Federal Government s response to these problems. This case has major implications for thousands of patients who have participated in Nsabp studies for decades, for the American taxpayers who have funded Nsabp studies in amounts in excess of \$100 million, and for maintaining the public trust in the integrity of science. Regrettably, this is only the latest in a series of cases that the subcommittee has felt it necessary to examine. The subcommittee s involvement in examining, investigating and monitoring the handling of cases of scientific misconduct dates back to 1988 when the subcommittee held its first hearing on the issue. Many in the scientific community have resisted outside scrutiny and others have sought to minimize the problem. But as we see today, scientific misconduct is a very real problem that requires an intensive and aggressive response by the scientific community itself and by the Federal Government. The case before us is a...
