## Reviews

*This ebook is worth acquiring. Better then never, though i am quite late in start reading this one. You will not truly feel monotony at at any time of your own time (that's what catalogues are for about if you ask me).*

Forgotten Books. Paperback. Condition: New. This item is printed on demand. 130 pages. Dimensions: 9.0in. x 6.0in. x 0.3in.Excerpt from A Manual of Military Telegraphy: For the Signal Service, United States Army, Embracing Permanent and Filled LinesThis work is, as its title indicates, a manual of military telegraphy, and is intended merely to furnish to officers of the United States Army such information as will enable them to establish and maintain telegraphic communication between forces in the field or points covered by military operations, as between the center and wings of an army, or an army and its base of operations, including, of course, intermediate points in either case. The Morse or American system of telegraphy is the one proposed, and no attention is paid to others. Two kinds of lines are described, but they differ merely in weight and size of material and equipment: one intended for continued use upon fixed routes, being the ordinary American line, and herein called permanent, and the other intended for use with moving columns, being composed of lighter materials, more simply equipped, portable, capable of being rapidly erected and as rapidly taken down, and provided with means of transportation, and a drilled force to handle it, denominated field-lines. Sufficient elementary information is given to enable the student to understand the principles which underlie the work he has to perform, without attempting a scientific treatise, and technicalities have been avoided as far as seemed practicable. Reference is made to works on electrics and telegraphy for information of a character too purely scientific to be embraced in this manual, chiefly to the Modern Practice of Telegraphy, by F. L. Pope, esq. The two varieties of lines are treated of separately, and each in the same manner: materials of line, method of preparation, tools for and...
