You Better Not Shout In 2079 the United States of America has been gone more than 50 years. What has replaced it is a nation that has made memory a crime. And when mixed with dissent it becomes a felony serious enough to have any and all recollections surgically removed. This is to be the fate reserved for a tenured professor of philosophy for daring to write a paper exposing the influences of Plato on his government. That his improbable name is madison makes him doubly cursed, and launches a fate to be played out through the actions and reactions of his Judge, his Jury, and his Executioners. Judges are integral to their judicial system but prosecutors make the real decisions. All too eager to assure the harshest sentences legislated by anonymous plutocrats these contemporary inquisitors know no moral or ethical bounds. For the Judge about to preside over the madison case the absolute craziest day of his life commences with the news of his appointment, a selection appropriately made by a cartoon-like prosecutor whose ambition and cruelty is...
