CreateSpace Independent Publishing Platform. Paperback. Condition: New. This item is printed on demand. 166 pages. Dimensions: 8.0in. x 5.2in. x 0.4in.There are those who can grind through a long list of shit to do day after day. Theyre called robots. Good for them! This book is for everybody else; for those millions of us who keep reverting to the old habits soon after we adopt somebody elses way of doing things, because again it turned out to be too much of a drag to do. The main problem with most self help books is that they encourage the suck it up, tough it out, and youll make it mentality, but dont take into account how the human brain actually works. Building resilience is one thing, but your brains main purpose is survival. Toughing shit out leads to stress. Stress kills, so your brain says Fck that!, and youre back to square one. So. . . If youve ever looked at a long to do list and thought How the hell do I get all this shit done this book is for you. It will help you make shit simpler, so you can actually do it. Teacher, author, and learning expert Oskar Cymerman debunks the tough it out myth sold in most self help books. The Power Of Three will show you how to simplify your personal and your professional life and how to come up with YOUR OWN SYSTEM. You will learn how to: 1. Get Going: Simplify, Design and Follow Your Own Success System, Figure Out Whats Most Important. 2. Level Up: Focus on Improvement not Productivity or Efficiency, New Ways to Network, Face Fears and Solve Problems. 3. Crush It: Become Elite in Your Field, Live a More Fulfilled Life, Reinvent Yourself. Learn to apply the Power of...
