TRANSCRIPTOME ANALYSIS OF TRPV1-POSITIVE RAT DORSAL ROOT GANGLION NEURONS

Copyrighted Material

GRIN Verlag Aug 2016, 2016. Taschenbuch. Condition: Neu. Neuware - Diploma Thesis from the year 2011 in the subject Medicine - Biomedical Engineering, grade: 1,0, Technical University of Berlin (Biotechnologie), language: English, abstract: Pain is an unpleasant sensory and emotional experience and an essential component of the body's defense system. Noxious stimuli are detected by special afferent sensory neurons called nociceptors (or nociceptive neurons), which connect peripheral tissues with the central nervous system. Noxious signals travel along the nociceptor to...

Reviews

Absolutely essential study ebook. It is probably the most amazing pdf i actually have read. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Enola Cormier**

Great e book and helpful one. I really could comprehend almost everything out of this composed e pdf. You are going to like how the author compose this pdf.
