

The Design of Business: Why Design Thinking Is the Next Competitive Advantage

By Roger L. Martin

Harvard Business Review Press. Hardcover. Condition: New. 208 pages. Dimensions: 9.1in. x 6.3in. x 0.8in. Most companies today have innovation envy. They yearn to come up with a gamechanging innovation like Apples iPod, or create an entirely new category like Facebook. Many make genuine efforts to be innovative they spend on R and D, bring in creative designers, hire innovation consultants. But they get disappointing results. Why In The Design of Business, Roger Martin offers a compelling and provocative answer: we rely far too exclusively on analytical thinking, which merely refines current knowledge, producing small improvements to the status quo. To innovate and win, companies need design thinking. This form of thinking is rooted in how knowledge advances from one stage to another from mystery (something we cant explain) to heuristic (a rule of thumb that guides us toward solution) to algorithm (a predictable formula for producing an answer) to code (when the formula becomes so predictable it can be fully automated). As knowledge advances across the stages, productivity grows and costs drop-creating massive value for companies. Martin shows how leading companies such as Procter and Gamble, Cirque du Soleil, RIM, and others use design thinking to push knowledge through the stages in...
