

## **Fantasy Artist's Figure Drawing Bible: Ready-to-draw Characters and Step-by-step Rendering Techniques (Hardback)**

Filesize: 6.52 MB

### **Reviews**

*Merely no terms to spell out. We have read through and i also am confident that i will gonna read yet again again in the future. You will not sense monotony at anytime of your own time (that's what catalogs are for about should you question me).*

*(Pasquale Larkin I)*

Bloomsbury Publishing PLC, United Kingdom, 2008. Hardback. Condition: New. Language: English . Brand New Book. Drawing fantasy, manga and comic book characters is very popular at the moment. These areas appeal to a wide range of budding artists from schoolboys wanting to make their own graphic novels to those wanting to develop fantasy games on their computers. This book is a good, sound text on how to develop characters - a bit of personality but mostly how to work up preliminary sketches to the final finished character. There are sample pages from various artists sketchbooks and lots of drawings in different poses to show how to convey different features, postures and movement. There are also outline figures that can be traced and then coloured in or developed further. All in all, this is a useful sourcebook for anyone interested in drawing fantasy figures. It is in the handy wirobound format.
