By United States Department of Agriculture

FBC LTD, 2017. Paperback. Condition: New. Language: English .
Brand New Book ***** Print on Demand *****. Excerpt from Farm Income Situation: July 1973 Current indications point to record crop output this year. According to the July 1 Crop Report, projected production (based on planted acreage and assuming average yields) for corn may be up 9 percent, wheat up 13 percent, and soybeans up 22 percent. However, beginning carryovers for 1973 marketing seasons will be down. And, unprecedented foreign demand is putting pressure on currently tight supplies of major crops. This demand and supply picture points to very favorable prices as 1973 crops are harvested.
