Dover Publications Inc., United States, 1979. Paperback. Condition: New. New edition. Language: English . Brand New Book. I had the impression that here painting itself comes to the foreground; I wondered if it would not be possible to go further in this direction. Thus did the young Russian painter Wassily Kandinsky (1866-1944) react to his first viewing of Monet's Haystack, included in an 1895 Moscow exhibit of French Impressionists. It was his first perception of the dematerialization of an object and presaged the later development of his influential theories of non-objective art. During study and travel in Europe, the young artist breathed the heady atmosphere of artistic experimentation. Fauvism, Cubism, Symbolism, and other movements played an important role in the development of his own revolutionary approach to painting. Decrying literal representation, Kandinsky emphasized instead the importance of form, color, rhythm, and the artist's inner need in expressing reality. In *Point and Line to Plane*, one of the most influential books in 20th-century art, Kandinsky presents a detailed exposition of the inner dynamics of non-objective painting. Relying on his own unique terminology, he develops the idea of point as the proto-element of painting, the role of point in nature, music, and other art, and the combination of point and line that results in a unique visual language. He then turns to an absorbing discussion of line -- the influence of force on line, lyric and dramatic qualities, and the translation of various phenomena into forms of linear expression. With profound artistic insight, Kandinsky points out the organic relationship of the elements of painting, touching on the role of texture, the element of time, and the relationship of all these elements to the basic material plane called upon to receive the content of a work of art. Originally published in...
