Forgotten Books, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Banking Law With Forms The following treatise was originally published in 1885 as an analysis of the evidence given in 1875 by leading bankers and lawyers in England, Scotland, and Ireland, before a Select Committee of the House of Commons. The high character and standing of the witnesses was a sufficient guarantee of the accuracy and value of the evidence, and the Blue Book afterwards published affords perhaps the most comprehensive body of facts and opinions bearing upon the banking system of the three kingdoms which has ever been given to the public. The- size of the volume extending to 560 folio pages of question and answer unfortunately renders its wealth of detail practically useless to the ordinary reader, and the present author has sought to place its facts and figures within the reach of all in a compact form. In doing so, it is to be remembered that) some of the Scotch banks, for their own convenience and the convenience of their customers, and also as an additional outlet for their rapidly increasing deposits, having opened branches in V)London and in Cumberland, the English bankers looked upon this as an invasion of their territory and an infringement of the privileges secured to them by the Bank Act of 1844. The Government on complaint took the question up, and ultimately the whole matter was remitted to the Select Committee referred to, to consider and report upon the restrictions imposed and privileges conferred by law on bankers authorised to make and issue Notes in England, Scotland, and Ireland respectively.
